Subject: Approval of Tenure at the Rank of Professor with Initial Appointment as Dean in
the College of Nursing at the University of Rhode Island

It is with great pleasure that I recommend approval of tenured status at the rank of Professor in the College of Nursing for Dr. Barbara Wolfe with her appointment as Dean of the College of Nursing. We are fortunate to have been able to attract such a distinguished educator, researcher, and collaborator within the health community. She has been extremely successful in obtaining external funding for research, developing mentoring programs for faculty, and building sound partnerships with health care organizations in the region. In addition, Dr. Wolfe has held tenure and the rank of Professor at the William F. Connell School of Nursing, Boston College, since 2004 and served as Associate Dean for Research within the Connell School since 2009.

The faculty in the College of Nursing and the College's Promotion and Tenure Committee support granting Dr. Wolfe tenure and the rank of Professor, and this recommendation is fully endorsed by Interim Dean Mary Sullivan of the College of Nursing and Provost DeHayes. The faculty are excited about the opportunity to work closely with such a distinguished scholar, educator, and leader in the nursing community and we look forward to her leadership within the University and the State as Dean of the College of Nursing.

IT IS RECOMMENDED:

That the Council on Postsecondary Education approve the awarding of tenure at the rank of Professor upon initial appointment for Dr. Barbara Wolfe in the College of Nursing.
