Re: Approval of the Awarding of Tenure at the University of Rhode Island

President David Dooley is requesting approval for the granting of tenure for Dr. Jeff Konin in his initial appointment as Chair and Professor in the Physical Therapy Department in the College of Human Sciences and Services at URI. Said recommendation is supported by the faculty of the Physical Therapy Department, the Interim Dean of the College of Human Sciences & Services and Provost DeHayes. Dr. Konin's tenure would be effective March 1, 2014.

More information from the University of Rhode Island, including Dr. Konin's curriculum vita is attached.

Accordingly, I recommend:

THAT the Board of Education approves the granting of tenure for Dr. Jeff Konin with Initial Appointment as Chair and Professor of Physical Therapy in the College of Human Science and Services at the University of Rhode Island, effective as of March 1, 2014.

DATE: February 7, 2014

SUBJECT: Approval of Tenure for Dr. Jeff Konin with Initial Appointment as Chair and Professor of Physical Therapy in the College of Human Science and Services at the University of Rhode Island

I am pleased to recommend approval of tenured status for Dr. Jeff Konin in his appointment as Chair and Professor in the Physical Therapy Department in the College of Human Sciences and Services at URI, effective March 1, 2014. The faculty of the Physical Therapy department formally evaluated Dr. Konin's curriculum vitae and voted to support granting him tenure. In addition, the Interim Dean of the College of Human Sciences and Services has supported the recommendation of the faculty, and in turn Provost DeHayes has reviewed Dr. Konin's record and the recommendations of the faculty and dean, and concurs with their recommendation.

I am now seeking the Board's approval of the unanimous recommendation by the department faculty, Dean, Provost, and me for the granting of tenure to Dr. Konin.

DATE: February 7, 2014

SUBJECT: Approval of Tenure for Dr. Jeff Konin with Initial Appointment as Professor of Physical Therapy in the College of Human Sciences and Services at the University of Rhode Island

It is with pleasure that I recommend approval of tenured status for Dr. Jeff Konin in his appointment as Professor and Chair of Physical Therapy in the College of Human Sciences and Services, effective March 1, 2014. Dr. Konin is a respected and experienced scholar, teacher, and practitioner in physical therapy, with areas of expertise in sports injury, injury assessment, and sportsmanship. He has maintained an active program of research, has published extensively, and has received grant support for his work. He has taught courses in physical therapy, athletic training, and biomechanics at former institutions and has been nominated and has received multiple teaching excellence awards. Dr. Konin has actively served on university governance committees, progressively taking on higher-level leadership roles throughout his career. He also has contributed his expertise to relevant community and professional organizations. Dr. Konin is currently serving as chair of URI's Physical Therapy Department.

The faculty in the Physical Therapy Department, as well as Interim Dean Lori Ciccomascolo, enthusiastically recommend tenure be granted to Dr. Konin. I fully endorse this recommendation. The faculty are excited about the opportunity to work closely with such an experienced leader, accomplished scholar, and engaging teacher.

Dear Provost DeHayes,

I have thoughtfully considered Dr. Jeff Konin's request for tenure and have read the comments in a letter of support for tenure from his peers in the Physical Therapy Department. Based on the information available to me, I enthusiastically recommend that Dr. Konin be tenured in the Physical Therapy Department at the University of Rhode Island. His colleagues agree that he is already a valuable member of the Physical Therapy Department as the faculty unanimously supports his candidacy for tenure. His past academic and scholarly record presents a balanced, solid achievement of teaching, research, and service that Dr. Konin has diligently worked to create.

Dr. Konin's areas of expertise include sports injury, injury assessment, particularly concussions and athletes, and sportsmanship. He has taught a number of courses in Physical Therapy, Athletic Training, and Biomechanics as a faculty member at former institutions including Delaware Tech, Eastern Connecticut State University, and James Madison University. Dr. Konin's commitment to the classroom is evident through the award nominations and teaching awards he has received thus far in this career including the 2001 Excellence in Teaching Award at Delaware Tech, the 2004 nomination for Outstanding Junior Faculty Award at James Madison University, and the 2008 Continuing Education Excellence Award from the National Athletic Trainer's Association.

Dr. Konin has maintained an active line of research in three areas: sports injury, injury assessment, and sportsmanship. Over the course of his career, Dr. Konin has published 20 textbooks, 27 book chapters and contributions, 19 peer-reviewed manuscripts, and has presented more than 40 professional poster and/or platform presentations. Further, in the last 12 years, Dr. Konin has been the PI or Co-PI on a number of grant submissions in his area of research and has been awarded over $450,000 in research funding.

In addition to the success and dedication Dr. Konin has demonstrated in his teaching and scholarship, he has actively engaged in service that positively affected his colleagues and students. He has been a member of the Strategic Planning Initiative Committee at Eastern Connecticut State University, served on the College Curriculum and Academic Performance Review Committees at the University of South Florida, and was a member of the Health Advisory Committee at James Madison University. Dr. Konin also advised students in the roles of committee member for doctoral dissertations and thesis advisor for both undergraduate and graduate students.

Dr. Konin has made many rich contributions to his former students and colleagues and I am confident that he will demonstrate continued productivity in his administrative, teaching,

research, and service contributions in the Physical Therapy Department and at the University of Rhode Island. As such, I strongly recommend that Dr. Jeff Konin be awarded tenure at the University of Rhode Island.

Sincerely,

Lori E. Ciccomascolo

Dear Dean Ciccomascolo,

The process by which the faculty of the Physical Therapy Department arrived at the decision to recommend Dr. Konin be brought on as Department Chair with tenure included the three areas traditionally employed in academic evaluation: teaching, scholarship, and service. This decision is based on our review of supporting documents as well as input from Dr. Konin, which provided the information summarized below.

Dr. Konin meets the qualifications for tenure in the following areas:

Teaching

It is evident that Dr. Konin believes in active learning that engages students in content and the learning process while emphasizing problem solving, evidence-based rationale, and faculty collaboration and collegiality.

While of course no data are available from teaching courses at URI, Dr. Konin provided a summary of student feedback data from 8 courses at other institutions where he has taught courses. These data indicate that Dr. Konin: 1.) provided clear course objectives and assignments (4.3/5); 2.) was available to assist students outside of class time (4.4/5); 3.) demonstrated respect and concern for students (4.3/5); 4.) stimulated interest (4.1/5); and 5.) received an overall instructor rating of 4.3/5.

Dr. Konin's commitment to teaching and proficiency in the classroom is also evident through multiple teaching related awards and nominations across multiple institutions:
1999 Nomination, Outstanding Physical Therapist Assistant Educator - F.A.Davis Publishers (primary publisher of textbooks used in physical therapist education)
2000 Excellence in Teaching Award - Delaware Tech
2001 Excellence in Teaching Award - Delaware Tech
2001 Dana Clark Lecturer - Eastern Connecticut State University
2002 Distinguished Visiting Lecturer - Delaware Tech
2003 Nomination, Hall Faculty Award - James Madison University
2004 Nomination, Outstanding Junior Faculty Award - James Madison University
2007 Nomination, Continuing Education Excellence Award - National Athletic Trainer's Association
2008 Continuing Education Excellence Award - National Athletic Trainer's Association

Dr. Konin has been regularly involved in advising students in the roles of committee member for doctoral dissertations, thesis advisor for both undergraduate and graduate students, and

The University of Rhode Island is an equal opportunity employer committed to the principles of affirmative action.

direct supervisor for numerous independent studies. At James Madison University he served as the pre-physical therapy advisor to nearly 300 undergraduate students. He has demonstrated that he is interested in helping students mature and develop professionally and has included them in such activities as editing textbooks, attending professional (national and international) meetings, and unique clinical settings.

He has presented professional continuing education courses on a regular basis since 1990.

Research

Dr. Konin has maintained an active line of scholarly work while serving in his administrative capacities. This is demonstrated by the production of peer-reviewed publications, textbooks, textbook chapters, and professional presentations.

Over the course of his career Dr. Konin has had numerous publications. These include 20 textbooks, 27 chapters and contributions, 19 peer-reviewed manuscripts, and more than 50 invited or non peer-reviewed works. He is the primary author on nearly all of these endeavors. In addition he has 10 published abstracts, more than 40 professional poster and platform presentations, and dozens of invited (national and international) lectures and presentations.

He has also been successful in getting grants. In the last 12 years, he has applied for over $600,000 in funding mostly in the areas of sportsmanship, sports injury, and injury assessment. He has been successful in being awarded over $450,000.

Service

Dr. Konin has served in a variety of ways throughout his career at departmental, college, and university-wide levels. His respect for the value of service is evident. He has also volunteered his services to professional organizations, state regulatory boards, academic publishing companies, and Olympic and Paralympic athlete health care.

In his most recent position he was a member of the university's Strategic Planning Initiative Committee, the President's Extended Cabinet, and reviewed several important policies for his department. Prior to that, in his roles at the University of South Florida, he was on college Curriculum and Academic Performance Review Committees, Institutional Review Board, Bylaw, and Master of Medical Science Concentration Committees. He was also a member of the Research Committee, the AIMS Committee, and Finance and Executive Committees. Further he chaired the Academic Promotion and Tenure Committee and the Marketing and Customer Service Committee. He was also an interdisciplinary internal grant reviewer.

At James Madison University he served in the following capacities: Pre-physical Therapy Society Advisor, Judicial Council Member, Faculty Friend Mentor, Honors Program and Council Advisor, Orthopedic Request for Funding Proposal (Chaired procurement process), Center for Pre-Health Resources Member, Health Advisory Committee Member, Sports Performance and Technology Council Member, Model Development for Health Services for Athletics Task Member, Merit Committee Department of Health Sciences Member, Alumni Planning Committee Member, Personnel Advisory Committee Member, Tenure and Promotion, Clinical Education Advisory Board Director, NCAA Drug Testing Site Coordinator, Crisis Intervention Team Director, National Center for Youth Sport Injury Founder and Director.

At the Delaware Technical & Community College Dr Konin was a member of the Strategic Planning, ADA Action, Holistic Action, Student Mentoring Task Force, Student Supportive Services, and Faculty Search Committees. And he served on the Physical Therapy Curriculum Advisory Board. He was active on the Faculty Council (Secretary 1997, Vice-President 1998, President 1999).

Dr. Konin has provided professional and academic consultation in various capacities.

A the national level Dr. Konin has been on the United States Olympic Committee, a Colorado Springs Olympic Training Center Volunteer, an Atlanta Olympic Games Track & Field Medical Staff member, a Lake Placid Olympic Training Center Volunteer, and an Athletic Trainer for the USA Wheelchair Rugby Team. He is a member of the American College of Sports Medicine, Medical Education Committee, and the Southeast American College of Sports Medicine Clinical Track Program Planning Committee. He is a reviewer and/or Editorial Board member for the Internet Journal of Allied Health Science and Practice, the Journal of Athletic Training, the Journal of Sport Rehabilitation, the Athletic Training Education Journal, the Clinical Journal of Sports Medicine, the Journal of Sports Science & Medicine, the Athletic Training & Sports Health Care Journal, Athletic Therapy Today, Clinical Roundtable, Training & Conditioning Magazine, NATA News, Sports Medicine Update, Medicina Sportive, and the Romanian Journal of Physical Therapy.
At the state level he has played active roles on the Delaware and Virginia Physical Therapy Associations, the Delaware Examining Board of Physical Therapy, the Delaware Athletic Trainers Association, and the State of Florida Concussion Task Force.

Further, this impressive academic record was accumulated while the overwhelming majority of his career has simultaneously involved progressive leadership and managerial roles and clinical responsibilities.

It is with great enthusiasm that the faculty of the Physical Therapy Department recommends Dr. Konin be awarded tenure.
