

Analysis of Formative Assessment Lesson Plans Form

Directions:

1. Select 2 examples you would like to review, based on your grade level and/or content areas.
2. Review each of the elements of the plans, with a focus on the big idea and learning goals.
3. Record the example you selected (e.g. Middle School Science) on the line provided.
4. Based on your review, identify and list 2-3 key characteristics for each of these two essentials.
5. Develop 1-2 guiding questions for each essential that could be used by teacher teams as they develop their lesson plans (see example below).

Example: _____

	Big idea	Learning goals
<p>List characteristics you notice about this essential from the example.</p>		
<p>What guiding questions could be asked to support dialogue about this topic?</p>	<p><i>Ex: What is an important idea in this standard that is at the very heart of the discipline?</i></p>
